**BELFOR is the exclusive provider and the ONLY BIOPROTECT™ CERTIFIED COMPANY in the Restoration industry.** BIOPROTECT™ RTU is an EPA registered, water-based antimicrobial surface protectant that provides continuous and persistent protection **for up to 90 days.**

After surfaces are professionally cleaned with an approved disinfectant, BIOPROTECT™ RTU can be applied to help keep surfaces protected for a longer period of time between regular cleanings.

The patented formula of BIOPROTECT™ RTU is non-flammable, odorless, colorless, non-leaching and non-migrating. BIOPROTECT™ RTU can be applied to both porous and non-porous surfaces. It is also safe to use on food contact surfaces, utensils, appliances and equipment.
