RED ALERT® PRIORITY RESPONSE FOR THE PREFERRED CLIENT

Response and actions taken during the first 12 to 72 hours after a disaster are critical in determining whether your business fully recovers. BELFOR's RED ALERT program can reduce response time, improve your chances of full recovery, and limit the financial impact of a disaster to your business operation.

Choosing BELFOR as your recovery partner and becoming a member of the RED ALERT program gives your business access to an entire team of experienced, professional recovery specialists who deliver effective and efficient solutions. One call to our 24-hour priority hotline activates RED ALERT and sends BELFOR to your site immediately.

"BAE Systems has been associated with BELFOR's RED ALERT Program for many years. This relationship has proven to be beneficial during fire, flood, and tornado events when BELFOR has rapidly mobilized large teams of personnel and various subject matter experts to allow for efficient restorations and recoveries, within short time periods. As the overall Risk Manager for BAE Systems in the US, I have received nothing but positive internal comments regarding the services rendered by BELFOR."

- Priority above all other non-RED ALERT Premium Plus clients during area-wide disasters (catastrophes).

Creating Order From Chaos

The RED ALERT service is structured to work with your own emergency procedures so, that when disaster strikes, everyone concerned is prepared and working in unison. This allows the RED ALERT three-stage action plan to be initiated with the upmost speed and effectiveness:

- **Stabilization** - to make the premises safe and secure and prevent further damage.
- **Assessment** - to assess the extent of the damage, determine priorities and coordinate an action plan.
- **Mitigation and Restoration** - structured recovery process to restore your facility, equipment and business to full working order.
