RED ALERT PRIORITY RESPONSE

Response and actions taken during the first 12 to 72 hours after a disaster are critical in determining whether your business fully recovers.

BELFOR’s RED ALERT program can reduce response time, improve your chances of full recovery, and limit the financial impact of a disaster to your business operation.

One call to our 24-hour member’s priority hotline activates RED ALERT, sending experienced BELFOR personnel immediately to your site.

Choosing BELFOR as your recovery partner gives your business access to an entire team of experienced, professional recovery specialists who deliver effective and efficient solutions.

RED ALERT Members Receive:

- Emergency services 24/7
- Dedicated account representative
- Expert assistance in emergencies of every type and size
- Effective action in asset protection the minute BELFOR arrives
- Immediate integration of RED ALERT with BELFOR International locations
- Priority response over all non-RED ALERT clients for area-wide disasters (catastrophes)
