TWO ARE BETTER THAN ONE

**MACHINERY & EQUIPMENT
RECOVERY SPECIALISTS**

A BELFOR (●) COMPANY

**WHEN DELIVERY TIMES ARE CRITICAL ...
WHEN REPLACEMENT IS NOT THE BEST OPTION ...
BELFOR AND BAMCOR PROVIDE THE BEST SOLUTION**

When you need accomplished, trusted and experienced loss-related machinery restoration, rebuilding and repair, count on the industry's best - BAMCOR and BELFOR.

Two industry leaders with combined knowledge and capabilities. Cost-effective solutions with decades of proven experience and advanced technology practices.

**MACHINERY REBUILDING, REPAIR AND RESTORATION
BACKED BY THE CONFIDENCE OF A WARRANTY**

REPAIRABILITY ASSESSMENT

With years of experience, knowledge and practical application, we can tell you if it can be rebuilt.

TIMEFRAME FOR REPAIR

We develop a comprehensive scope and delivery to account for all of the work required to return the machinery to its fully reliable, fully functional, pre-loss condition.

COST OF REPAIR AND RESTORATION

Based on the scope that is developed, we will provide cost estimates to perform the work thoroughly and accurately.

IMPLEMENTATION OF REPAIR AND RESTORATION PLAN

We are fully prepared to implement the necessary rebuilding and repair work. This work can take place onsite, at our rebuild facilities, or at a combination of all locations. In either case, we will enact a plan that allows for the most effective and most efficient repair process.
