An unexpected fire. A sudden earthquake. A devastating hurricane. Or maybe just a busted pipe. Disaster can strike anytime, anywhere.

What will you do?
The answer is simple.
STAY CALM. CALL BELFOR.

THE BELFOR PROMISE

To do our very best, every time.
To ensure your best interest is always at the forefront.
To stand behind our word and to give you our all — every second, every minute, every day.

NEVER SKIP A BEAT AFTER A DISASTER

When a disaster or catastrophic event occurs, the medical community is faced with demanding and difficult decisions that require immediate attention and action. The requirements of complying with different codes and standards while maintaining a high level of operational readiness is a huge challenge for facility managers, administrators, and other hospital staff.

Hospitals, long-term care, assisted living and other patient care centers can improve their chances of survival by choosing the right disaster recovery partner. Whether you need an expert opinion, preventative care or assistance with a large casualty loss, BELFOR has the resources, knowledge, and experience to help provide a safe and healthy environment.

Single-Source Recovery Solutions

With more than 300 locations in 26 countries, BELFOR is the largest disaster recovery and management company in the world. We are recognized as a single-source provider of the most comprehensive selection of disaster recovery solutions.

We understand that, regardless of the severity of the disaster, patient care and safety is the most important priority. Our solutions focus on:

- Life Safety
- Environment of Care
- Methods of Procedure (MOP)
- Infection Control Issues
- Federal, State and Local Standards and Codes
- Health Care Systems

Life Safety Solutions

From emergency power to safeguarding sanitary conditions during reconstruction projects, BELFOR can assist with important Life Safety measures that will meet stringent standards and ensure business continuity. BELFOR offers a variety of services including:

- Safety Inspection and Evaluation
- Site Containment Erection and Maintenance
- HVAC Cleaning and Decontamination
- Fire, Water and Storm Damage Restoration

Environmental Services

Protecting or minimizing exposure to hazardous substances and conditions is critical to maintaining Environment of Care standards.

- Hazardous Waste - Biological, Chemical and Radioactive
- Asbestos, Mold and Lead Remediation
- Spill Response
- Decontamination - Site, Machinery and Equipment

More Than 30 BELFOR Employees In The U.S. Are ASHE-Certified

Vital Records Recovery

Securing and being able to access patient medical data is one of the highest priorities. BELFOR has more experience than any other restoration contractor with treatment and drying services for documents and vital records recovery.

In addition to developing a proprietary, effective process for cleaning and drying X-rays, BELFOR also restores all types of magnetic media, microfiche, microfilm, files, documents, negatives, archives and more.

Standards and Codes

BELFOR strictly adheres to all industry standards as well as federal and state government regulations. This includes local city and county building and/or environmental codes.

BELFOR can make sure every disaster recovery solution is compliant with codes enforced by The Joint Commission (TJC), Agency for Health Care Administration (AHCA), American Dental Association (ADA), National Fire Protection Association (NFPA), American Medical Association (AMA), Occupational Health and Safety Administration (OSHA), and others.

BELFOR can help. Call our 24-hour hotline.
